Please join us at one of our open houses on the **Route 28X Enhancements Project**.

EOT representatives will be stationed at exhibit tables to provide information and seek input. Each table will be dedicated to one of the following topics:

- 1. Preliminary corridor concepts – station locations and traffic impacts**
- 2. Improving bus operations – busways and other service enhancements**
- 3. Design considerations – station concepts and fare collection**
- 4. Grant application process – schedule, requirements, and progress**

Additional events will be held throughout July and August.
